PROFESSIONAL SUMMARY

Highly skilled and detail-oriented Full Stack Engineer with over 2 years of hands-on experience building enterprise-grade, scalable, and secure systems in the healthcare, insurance, and ERP sectors. Specializes in Java, Spring Boot, Spring AI, Microservices, React, and Next.js, with additional expertise in Odoo ERP (versions 17, 18 & 19) custom module development and Bahmni-Odoo hospital ERP deployments. Proven expertise in Docker, Kubernetes, CI/CD pipelines, Cloud Deployment (AWS, GCP, Azure), and Observability & DevOps. Strong track record of delivering impactful software solutions that serve millions of users across Ethiopia.

TECHNICAL SKILLS

Programming Languages:	Java, Python, JavaScript (ES6+), TypeScript, SQL
Frameworks & Libraries:	Spring Boot, Spring AI, Spring Security, Spring Cloud, React, Next.js
ERP & Business Systems:	Odoo 17, 18 & 19 (Custom Module Dev, Manufacturing, Inventory, POS, Accounting, HR), Bahmni EMR
Databases & Caching:	PostgreSQL, MySQL, MongoDB, Redis, SQL Server
DevOps & Observability:	Docker, Kubernetes, CI/CD (GitHub Actions, Azure DevOps), Prometheus, Grafana
Cloud & Interop:	AWS, GCP, Azure, HL7 FHIR, OpenFn Integration Platform, REST APIs, Chapa API, Telebirr API

PROFESSIONAL EXPERIENCE

Backend Developer

Medco Technology Solutions

Addis Ababa, Ethiopia

May 2024 – Present

- Architected and maintained robust, secure, and high-performance RESTful APIs using **Java** and **Spring Boot** for enterprise healthcare and insurance platforms.
- Built the backend for the **FETAP (Foreign Employment Term Assurance Platform)** for Niyala Insurance, processing real-time insurance premiums, policy issuances, and claim workflows.
- Designed and implemented key services for the **Kenema Pharmacy Management System (KPMS)**, serving a multi-branch network of 54+ pharmacies across Ethiopia.
- Developed the **HealthConnect Interoperability Layer** to bridge healthcare provider systems with insurance carriers using FHIR and HL7 data exchange standards.

FILIMON KIROS

FULL STACK ENGINEER | phillipos1212@gmail.com

PROFESSIONAL EXPERIENCE (CONTINUED)

- Deployed and customized the open-source **Bahmni EMR** system (OpenMRS, OpenELIS, and Odoo ERP components) for Bishoftu and Wukro hospitals, configuring them to hospital-specific clinical workflows.
- Integrated the **Chapa Digital Payment Gateway** into Bahmni-Odoo hospital EMR workflows at St. Peter Hospital, St. Paul Hospital (Millennium Medical College), and Adama General Hospital, streamlining patient billing and payment processing.
- Integrated **Telebirr (Ethio Telecom MiniApp & USSD)** with Bahmni-Odoo across multiple hospitals, enabling patients to settle hospital bills via Ethiopia's leading mobile money platform.
- Developed custom **Odoo ERP modules** (versions 17, 18 & 19) for clients across manufacturing, pharmacy, hospitality, and multi-industry sectors — including manufacturing MRP for Domain Aluminium (Adama), pharmacy management for Kenema Pharmacies government network (54+ branches), hotel ERP for Romanat Hotel (Addis Ababa), and a three-in-one administrative ERP combining Construction, Import/Export, and School management.

Software Developer Intern

Addis Ababa, Ethiopia

Medco Technology Solutions

Feb 2019 – April 2019

- Participated in the design, development, and testing phases of the Fetalp Insurance project, utilizing Java and MySQL.
- Worked in an Agile development team, gaining experience in scrum ceremonies and version control workflows with Git.

EDUCATION

Bachelor of Science in Electrical and Computer Engineering (Computer Stream)

Adigrat, Ethiopia

Adigrat University

Sept 2015 – June 2021

Academic Standing: Cumulative GPA: 3.7 / 4.0 (Distinction/Excellent score)

Relevant Coursework: Object-Oriented Programming (Java), Database Systems, Software Engineering, Data Communication and Computer Networks, Operating Systems, Computer Network Security, Microcomputers and Interfacing.

KEY PROJECTS

- **CBHI Platform (Community-Based Health Insurance):** Developed scalable backend features for a platform managing 2.4M+ members for the Addis Ababa City Administration, optimizing enrollment and premium calculation pipelines.
- **Awash & Niyala Claims Management Systems:** Built integrations and automated claim processing pipelines using OpenFn, Spring Boot, and custom webhooks for efficient provider-payer claims settlement.
- **Prevention of Car Accident Due to Drowsiness (Final Project):** Developed a real-time computer vision system using Python and OpenCV that detects driver drowsiness and triggers an alarm system.
- **Design of Floor Cleaning Robot (Mini Project):** Conceptualized and developed an autonomous obstacle-avoiding floor cleaning robot prototype using microcontrollers and sensors.

ODOO ERP PROJECTS

Custom Odoo module development across multiple industries on Odoo versions 17, 18 & 19, working as part of a development team to build and customize domain-specific ERP modules.

Aluminium Manufacturing ERP

Odoo 17 | Testing Phase

Domain Aluminium Manufacturing — Adama, Ethiopia

- Custom manufacturing ERP covering production planning, raw material inventory, work order management, quality control, and manufacturing reporting (MRP, Inventory, Purchase, Quality modules).

Kenema Pharmacies Management System v2

Odoo 17 | Deployed

Government — Kenema Pharmacies, Addis Ababa (54+ Branches)

- Multi-branch pharmacy management system for the government-owned Kenema pharmacy network, handling inventory, prescription tracking, stock replenishment, and sales reporting across 54+ branches.

Romanat Hotel Management System

Odoo 18 | Deployed

Romanat Hotel — Addis Ababa, Ethiopia

- Full hotel ERP covering reservations, front-desk operations, housekeeping, billing, and financial reporting (Hotel, POS, Accounting, HR modules).

Triple-Domain Administrative ERP

Odoo 19 | Deployed

Multi-Industry Client — Ethiopia

- Three-in-one administrative ERP integrating Construction project management, Import/Export trade operations, and School administrative management into a single unified platform.

CERTIFICATIONS & SOFT SKILLS

Certifications: Networking Device Configuration, Maintenance, and Troubleshooting (Mekelle University ICT Center) | Axum University Talent Program Certificate (2014 & 2015)

Soft Skills: Adaptability, Problem-Solving, Teamwork, Attention to Detail, Effective Interpersonal Communication, Time Management
